

# LED STRIP LIGHT

3W/6W/9W/12W/15W/18W

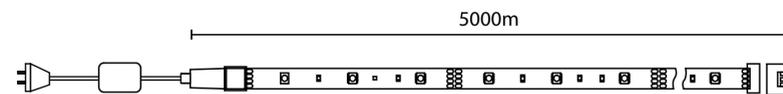

## KEY ADVANTAGES

1. Evo-Strip is a premium range of flexible strips crafted for the most stylish residential and commercial interiors the demand exceptional colour rendering and consistency.  
2. Evo-Strip lights achieve an impressive CRI 98, aligning flawlessly with our full spectrum downlights and spotlights. Our RGBCW solution offers a dynamic combination of RGB and tunable white ( 2700K to 6000K ) in a single product effectively resolving the issue of brightness often experienced with white lights on RGBCW strip. With an innovative wall wash lens within a sleek micro aluminium profile our linear lens lends itself perfectly to wall washing, curtain or shutter lighting, and even kitchen worktop lighting

CCT — 2700K 3000K 4000K 6000K
